Trend Micro™ Worry-Free™ Business Security Hosted Quick Start Card

What is Worry-Free Business Security Hosted?

Trend Micro™ Worry-Free™ Business Security Hosted (WFBS-H) for small offices protects multiple PCs and notebooks located in or out of the office from viruses and other threats. You can centrally manage security from anywhere without adding a server or installing server software. Trend Micro hosts and updates the service for you.

WFBS-H features:

- Protection for multiple PCs or notebooks from a single, business solution
- Stop viruses, spyware, and other Web threats before they reach computers
- Central Web console, access anywhere (no server required)
- Ability to generate overall security reports

Can I try Worry-Free Business Security Hosted for a while?

Yes, you can try it for 30 days! And if you buy the full version, your settings will be automatically migrated.

❶ Visit https://wfbs-h.trendmicro.com/Trial/.

❷ Select your region and language. Click **OK**.

❸ Complete the Trial Registration form and click **Submit Application**. This also takes care of setting your user name and password. (Trial account user names begin with a '**#**'.)

   Note: Full account user names do not begin with a '**#**'.

Where can I buy Worry-Free Business Security Hosted?

Contact your Trend Micro reseller for purchase options. Depending on your region, your reseller will give you either a Registration Key or an Activation Code. Use this to register WFBS-H on the Trend Micro Online Registration (OLR) site.

How can I activate Worry-Free Business Security Hosted?

When you buy WFBS-H, you will receive either a Registration Key or an Activation Code.

❶ Visit https://olr.trendmicro.com/registration/. If you have an existing Trend Micro Online Registration (OLR) account, sign in with those credentials. If not, create one.

❷ Follow the onscreen instructions to register WFBS-H. This includes setting up your WFBS-H user name.

❸ Use the URL and login credentials that we will send you by email to access the WFBS-H console.

How do I get started?

Visit https://wfbs-h.trendmicro.com/, select your region and language and log in.

Now you can:

- Migrate your trial service account to the full service (this option is available only to full service users). To migrate, click **Yes, I do** on the Welcome screen. Type your trial credentials and then click Migrate.

- Use the wizard to create installation packages. This wizard guides you through the entire process to create, download, and deploy installation packages to clients.

Four simple steps to protect your computers
